What's New In?

Let's Learn Japanese - Hiragana is an interactive software app which allows you to test your knowledge of Hiragana hieroglyphs. This is a portable program, so Let's Learn Japanese - Hiragana does not come with an installation package. It means that you can store the app on a USB flash drive or any other removable device, save it to any computer and directly run its executable file. More importantly, no leftover items can be found in the Windows Registry or on the hard drive after program removal. Plus, you can carry Let's Learn Japanese - Hiragana with you whenever you're on the go. The interface of the application is fun and simple to work with. So, you can select the level of difficulty, according to the number of hieroglyphs that you want to go through (out of a total of 99). In addition, you can pick the test method (Hiragana, Katakana or both) and make the utility show hints. Once the test is finished, you can view a summary on the number of questions you have taken, correctly or wrongly answered, as well as a percentage rate. The simplistic application requires a low amount of CPU and system memory, has a good response time and includes a help file with the supported Hiragana, Romaji and Katakana characters. We have not experienced any problems during our testing; Let's Learn Japanese - Hiragana did not freeze, crash or pop up error dialogs. All in all, this app provides a straightforward solution to learning Hiragana. No recent updates have been made.
